Who we are

Everyone's Healing is a non-profit organization that provides free and low-cost mental health services for individuals who are uninsured or underinsured. We also ensure that mental health clinicians receive fair wages for the services they provide. This way, Everyone's Healing.

What we do

We address the gap for those who do not qualify for Medicaid because they earn more than \$22,000 a year but do not earn enough to afford health insurance. We achieve this by partnering with mental health agencies to pay clinicians a fair market rate. This reduces clinician burnout and enables them to provide mental healthcare for free or a reduced fee for clients who are uninsured and underinsured.

Business Donation Options

Platinum

Donors who contribute \$5,000 or more will be listed under the Platinum Donor section of our website, receive a featured write-up in our newsletter, and two dedicated social media posts across our platforms highlighting their generosity as well as their business.
